

## The 1st Total-Body J-PET general meeting 2024

| Time                             | Agenda  | Speaker   |
|----------------------------------|---|---|
| <b>Saturday, 05 October 2024</b> |   |   |
| <b>18:00 - 21:00</b>             | <b>Integration Meeting</b>  | <b>Indus Tandoor</b><br><b>Świętego Tomasza 18</b>  |
| <b>Sunday, 06 October 2024</b>   |   |   |
| <b>10:00 - 11:10</b>             | <b>Opening and short statements from Collaborating Institutions</b>       |   |
|                                  | Welcome talk  | <b>Prof. Zbigniew Postawa</b><br>The Dean of the Faculty of Physics   |
|                                  | Support for the J-PET   | <b>Dr. Gabriela Konopka-Cupiał</b><br>Director of The Center for Technology Transfer, Jagiellonian University |
|                                  | Collaboration of Cracow University Hospital                               | <b>Prof. Anna Sowa - Staszczak</b><br>Head of Nuclear Medicine Unit, Cracow University Hospital               |
|                                  | Collaboration of LNF with J-PET   | <b>Prof. Catalina Curceanu</b><br>National Laboratory of Frascati, Italy                                      |
|                                  | Collaboration of AGH with J-PET   | <b>Prof. Tomasz Szumlak</b><br>AGH University of Science and Technology                                       |
|                                  | Collaboration of CCB with J-PET   | <b>Prof. Renata Kopeć</b><br>Director of Cyclotron Center Bronowice   |
|                                  | Collaboration of PK with J-PET  | <b>Prof. Edward Lisowski</b><br>Cracow University of Technology   |
|                                  | Collaboration of Institute of Nuclear Chemistry and Technology with J-PET | <b>Dr. Rafał Walczak / Prof. Agnieszka Majkowska</b><br>Institute of Nuclear Chemistry and Technology, Warsaw |
|                                  | Collaboration of UMCS with J-PET  | <b>Prof. Bożena Jasińska / Dr. Marek Gorgol</b><br>Maria Curie-Skłodowska University, Lublin                  |
|                                  | Collaboration of HIL UW with J-PET  | <b>Dr. Jarosław Choiński / Dr. hab. Anna Stolarz</b><br>Heavy Ion Laboratory, University of Warsaw            |
|                                  | Center for Theranostics a home for total-body J-PET                       | <b>Prof. Ewa Stępień</b><br>Jagiellonian University   |
|                                  | Stairway to the Total-body J-PET  | <b>Prof. Paweł Moskał</b><br>Jagiellonian University  |
| <b>11:10 - 11:40</b>             | <b>Coffee break and conference photo</b>                                  |   |
| <b>11:40 - 12:50</b>             | <b>Status of the TB-J-PET Hardware preparation</b>                        |   |
| <b>11:40</b>                     | Scintillators   | <b>Dr. Łukasz Kapłon</b><br>Jagiellonian University   |
| <b>11:47</b>                     | SiPMs etc..   | <b>Dr. Szymon Niedźwiecki</b><br>Jagiellonian University  |
| <b>11:54</b>                     | Triggerless Data Acquisition and Front End Electronic                     | <b>Dr. Grzegorz Korcyl</b><br>Jagiellonian University   |
| <b>12:09</b>                     | Design and construction of housing and cooling system                     | <b>Prof. Edward Lisowski / Prof. Grzegorz Filo</b><br>Cracow University of Technology                         |
| <b>12:19</b>                     | Design and construction of the cross-stage moving system for PET and CT   | <b>mgr Tefik Kaplanoglu</b><br>Jagiellonian University  |
| <b>12:26</b>                     | Design and construction of positronium annihilation chambers              | <b>Dr. Marek Gorgol</b><br>Maria Curie-Skłodowska University, Lublin  |
| <b>12:33</b>                     | Establishing Laboratory for the J-PET modules testing                     | <b>Dr. Sushil Sharma</b><br>Jagiellonian University   |
| <b>12:40</b>                     | Establishing facility for BIO Positron Annihilation Lifetime Spectroscopy | <b>Dr. Karol Kubat</b><br>Jagiellonian University   |
| <b>12:50 - 13:00</b>             | <b>Coffee break</b>   |   |

**13:00 - 13:50 Status of the TB-J-PET Software preparation**

|  |   |
|--|---|
| <b>13:00</b> Graphical User Interface and multi-threaded programming framework | <b>Dr. Bartłomiej Rachwał</b><br>AGH University of Science and Technology |
| <b>13:10</b> Status of the TB-J-PET Software preparation                       | <b>Krzysztof Kacprzak</b><br>Jagiellonian University                      |
| <b>13:20</b> Data archiving systems and computer center                        | <b>Dr. Eryk Czerwiński</b><br>Jagiellonian University                     |
| <b>13:30</b> Status of PET and Positronium image reconstruction                | <b>mgr Manish Das</b><br>Jagiellonian University                          |
| <b>13:40</b> Status of the brain imager design                                 | <b>Dr. Martin Reader</b><br>Jagiellonian University                       |

**13:50 - 14:50 Lunch break****14:50 - 16:30 Funded research project and project under preparation**

| <b>16:13</b> in preparation SONATA ".... "  | <b>Dr. Martyna Durak-Kozica</b><br>Jagiellonian University |

**Dr. Kamil Wawrowicz**  
Jagiellonian University

**16:25** Contribution to the OPUS-LAP project

**16:30 -- 17:00** Coffee break

**17:00 - 18:20** PhD projects under realisation

**17:00** Machine-learning for cell analysis

**mgr Kriti Awasthi**  
Jagiellonian University

**17:05** Simultaneous multi-tracer imaging with the J-PET scanner

**mgr Ermias Yitayew Beyene**  
Jagiellonian University

**17:10** Study of the CPT symmetry with the J-PET scanner

**mgr Neha Chug**  
Jagiellonian University

**17:15** Developing positronium imaging for the in-vivo liver cancer diagnosis

**mgr Manish Das**  
Jagiellonian University

**17:20** Developing cost-effective computed tomography and cross-stage platform for TB-JPET/CT

**mgr Tevfik Kaplanoglu**  
Jagiellonian University

**17:25** Study of Quantum Entanglement with the J-PET scanner

**mgr Deepak Kumar**  
Jagiellonian University

**17:30** Precision studies of the orthopositronium lifetime with the J-PET detector

**mgr inż. Justyna Mędrala-Sowa**  
Jagiellonian University

**17:35** Developing positronium imaging for the proton therapy enhancement

**mgr Wiktor Mryka**  
Jagiellonian University

**17:40** Studies of antimatter gravitation using J-PET modules and AEGIS at CERN

**mgr Piyush Pandey**  
Jagiellonian University

**17:45** Developing PET and Positronium imaging for total-body PET systems

**mgr Szymon Parzych**  
Jagiellonian University

**17:50** Blood clots structural characteristics with positronium

**mgr inż. Simbarashe Moyo**  
Jagiellonian University

**17:55** Study of multi-photon decays of positronium with J-PET detector

**mgr Pooja Tanty**  
Jagiellonian University

**18:00** Estimating NEMA characteristics for the total-body J-PET scanner

**mgr Keyvan Tayefi Ardebili**  
Jagiellonian University

**18:05** Precision study of the CP symmetry using J-PET scanner

**mgr Kavya Valsan Eliyan**  
Jagiellonian University

**18:10** TB-J-PET CT-less image reconstruction

**mgr Satyam Tiwari**  
Jagiellonian University

**18:30 -- 20:30** Dinner

**Trattoria Rialto,**  
**Raciborska 17, 30-384 Kraków**
